PROJECTS

1. Mentor AI : AI-Powered Learning Platform | Reactjs, Gemini API, Nodejs

[Link](#)

- Interactive chatbot powered by Gemini API to answer, convert/debug code, and give roadmap guidance
- Multiple tools integrated: Code Converter, AI Debugger, and SVG Roadmaps for DSA, DBMS, ML, CN, etc.
- Frontend in React.js + Tailwind CSS, backend in Node.js + Express, with localStorage-based chat memory
- Intent-based routing for smart navigation and fully responsive UI using Framer Motion & smooth animations

2. Fashify : A Landing Page for a Fashion Store | GSAP, Reactjs, Carousel

[Link](#)

- Developed a modern, fully responsive landing page for a fashion brand using React.js and Tailwind CSS.
- Integrated Framer Motion and GSAP for scroll animations, 3D visuals, and parallax effects.
- Clean and responsive UI with context-based state management and protected routes

3. BeProductive : Pathway to Productivity | Nextjs, TypeScript

[Link](#)

- This SaaS app helps you easily monitor your tasks, goals, and daily achievements
- It's designed to keep you consistent — with reminders and motivational cues that push you to keep going.
- it offers a smooth, distraction-free experience to help you stay focused and organized.

4. GoldLace : E-Commerce Digital Jewellery platform | Sanity.io, Nextjs, TypeScript

[Link](#)

- A responsive and elegant jewelry website tailored for a client's brand and business needs.
- All product images, details, and categories are fully manageable through Sanity.io, making updates seamless.
- Customers can directly connect and place orders via WhatsApp with pre-filled product info for a smooth experience.
